

6TH. JUMUIYA AGRIBUSINESS & BLUE ECONOMY INVESTMENT CONFERENCE, JABEIC 2024 TAITA TAVETA, 27TH - 29TH November 2024

Partnerships to unlock Green & Blue Economy Investments

Introduction to Jumuiya ya Kaunti za Pwani (JKP)

The Jumuiya ya Kaunti za Pwani (JKP) is the regional economic development organization for Kenya's coastal counties: Mombasa, Kwale, Kilifi, Tana River, Lamu, and Taita Taveta. Our mission is to drive economic growth and shared prosperity across these regions by fostering collaboration among regional leaders, county and national governments, development partners, the private sector, and academia.

We focus on four main areas:

1. **Economic Development Coordination:** We facilitate cooperation among regional counties, the national government, development partners, investors, and industry stakeholders to promote economic progress.
2. **Policy Harmonization:** We align the County Integrated Development Plans (CIDPs), sector and spatial plans, Vision 2030 Medium Term Plans (MTP), and the Jumuiya 2030 regional economic blueprint to ensure cohesive planning and execution.
3. **Regional Asset Promotion:** We work to enhance investment opportunities, tourism, culture, and heritage in the coastal region, leveraging our shared resources and historical context.
4. **Public-Private Partnerships:** We support investments through collaborative efforts between the public and private sectors, aiming to stimulate economic growth and development.

The JKP is led by the six County Governors and managed by the Jumuiya Economic Development Secretariat, under the direction of a Chief Executive Officer. Our vision is to build a robust regional economy that creates wealth and prosperity for coastal communities.

Our strategic approach is guided by the Jumuiya 2030 blueprint, which outlines our long-term development goals. The Jumuiya 10 Pillars program are key initiatives aimed at reducing poverty and driving socio-economic transformation. A central component of our strategy is the annual Jumuiya Agribusiness & Blue Economy Investment Conference (JABEIC). This flagship event is designed to align with the Jumuiya 2030 blueprint, providing a platform to promote regional assets, showcase investment opportunities, and facilitate knowledge exchange. JABEIC focuses on high-growth sectors and crosscutting flagship projects that are crucial for the development of the Kenya coast trade and logistics economic cluster: Sea-Land of Opportunities.

The 6th Jumuiya Agribusiness & Blue Economy Investment Conference, JABEIC 2024 – Voi, Taita Taveta

Convened by the Jumuiya Economic Development Secretariat and co-hosted by the six-member county governments, the 6th Jumuiya Agribusiness and Blue Economy Investment Conference (JABEIC 2024) will be held in Voi, Taita Taveta County, from November 27th to 29th, 2024. Building on the successes of previous conferences, JABEIC 2024 will further the commitment of regional county governments to economic development cooperation.

This annual event rotates among the six coastal counties to ensure broad inclusivity. The inaugural JABEIC in 2018 took place in Mombasa, preceding the 2018 UN Sustainable Blue Economy Conference in Nairobi. Subsequent conferences were held in Malindi (Kilifi County) in 2019, Diani (Kwale) in 2021, Hola (Tana River) in 2022, and Mombasa in 2023.

JABEIC has long-standing partnerships with organizations including the Food & Agriculture Organization of the United Nations (FAO), the European Union, GIZ, AICS, UN-Habitat, UNEP, CAMOES, Expertise France, CIHEAM, UKAID, USAID, Telkom Kenya, ABSA, Trademark East Africa, ECOBANK, Safaricom, KPA, KMA, and many others. JABEIC 2024 aims to strengthen and expand these collaborations while encouraging increased participation from both local and international industry leaders.

JABEIC 2024 Theme: Partnerships to unlock Green & Blue Economy Investments

JABEIC 2024 builds on the progress and opportunities identified in the previous five JABEIC events, aligning with the Kenya Vision 2030 long-term national transformation blueprint. The Kenya Vision 2030 Medium Term Plan (MTP4) 2023–2027, titled “Bottom-Up Economic Transformation Agenda for Inclusive Growth,” prioritizes agriculture and the blue economy as key growth and catalytic sectors. This alignment is reflected in the County Integrated Development Plans (CIDPs) for 2023–2027, which focus on Agri-Blue Economy production, agro-processing, trade and industry, coastal tourism, fisheries, maritime activities, natural resources, and environmental sustainability.

The theme “Partnerships to Unlock Green & Blue Economy Investments” aims to foster collaboration and showcase emerging global, national, and local trends. Key aspects include:

- Renewed emphasis on agriculture and the blue economy as drivers of economic revival in the Jumuiya ya Kaunti za Pwani region.
- Socio-economic empowerment, with a particular focus on youth and the large unemployed population.

- Presentation of regional investor-ready projects aligned with Kenya Vision 2030 MTP4 and the CIDPs of the six member counties.
- Advancement of the EU-funded Go Blue Project (Kshs. 3.5 Billion) and exploration of blended finance opportunities in “Go Blue 2.0” and Green Blue Bonds.
- Development of the Jumuiya Hub, featuring six Innovation Labs integrated with MTP4 Aggregation and Industrial Parks (CAIPs), to foster industrialization and job creation in Mombasa, Kwale, Kilifi, Tana River, Lamu, and Taita Taveta counties.
- Launch and promotion of Special Economic Zones and Industrial Parks in the region.
- Enhancement of regional trade through the African Continental Free Trade Area (AfCFTA).
- Strategic collaboration with organizations such as the Vision 2030 Delivery Board and Kenya Investment Authority to advance regional projects and initiatives.
- Formation of international partnerships focused on climate health and sustainability.

JABEIC 2024 is designed to integrate local, national, and global trends, adhering to trade protocols and developing innovative financial models to boost agribusiness and blue economy initiatives.

A Case for Partnerships

Effective collaboration among stakeholders is vital for driving investment in agriculture, agroprocessing, trade, and job creation in the Jumuiya region. Strengthening partnerships between national and county governments, the private sector, and development partners is essential and aligns with the BETA agenda, MTP 4, and County Integrated Development Plans (CIDPs).

County governments should implement policies that streamline business operations, offer investor incentives, and ensure regional stability. Establishing county-level investment companies can centralize investment information and approvals, acting as facilitators for both government and investors.

Engagement from the private sector is crucial. Encouraging local and international businesses to invest in agroprocessing aligns with BETA priorities and MTP 4's focus on economic diversification. Promoting Public-Private Partnerships (PPPs) can address infrastructure, healthcare, and education needs, leveraging private sector expertise and financing.

County Aggregation and Industrial Parks (CAIPs) can drive industrialization by providing essential infrastructure and support, attracting investments, and enhancing local economic development. Integrating CAIPs into regional strategies will boost the effectiveness of CIDPs and MTP 4 initiatives.

International development organizations and NGOs can offer technical assistance, funding, and capacity-building, bridging financing gaps and supporting local projects.

Additionally, utilizing regional trade agreements like the African Continental Free Trade Area (AfCFTA) can open new markets for agricultural products and enhance trade opportunities.

By fostering collaboration, establishing investment companies, promoting PPPs, utilizing CAIPs, and leveraging trade agreements, the Jumuiya region can drive agricultural investment, create sustainable jobs, enhance governance, and achieve comprehensive economic growth.

The Conference Approach & Objectives

JABEIC 2024, hosted by Taita Taveta County, will serve as a premier exhibition and conference focused on fostering dialogue and showcasing innovative interventions aligned with the regional economic bloc's vision.

The conference will primarily address agriculture, while also acknowledging the importance of the blue economy. It aims to catalyze and drive regional economic transformation, industrialization, and job creation, with a special focus on opportunities for youth and women. The role of the private sector in regional investment will also be emphasized.

JABEIC 2024 seeks to promote sustainable economic development, generate job opportunities - particularly for youth - enhance regional integration, and recognize significant contributors to the region's progress through effective collaboration and strategic investments.

Conference Objectives

- 1. Present Key Bankable Projects:** Showcase robust, investor-ready agricultural projects across the six coastal counties to attract investment and position the region as a viable trade gateway.
- 2. Identify Opportunities for CAIPs:** Explore immediate-term opportunities for advancing County Aggregation and Industrial Parks (CAIPs), essential for fostering industrialization and job creation.
- 3. Create Synergies in Agribusiness:** Facilitate partnerships between business farming communities, government entities, and academic institutions. Promote discussions on innovative investments in the green and blue sectors aligned with Jumuiya 2030 investment opportunities.
- 4. Highlight Youth Employment Opportunities:** Focus on how agricultural investments can spur job creation across the agriculture value chain, with targeted opportunities for youth and women. Explore ways to engage and empower young people in agricultural enterprises and value-added activities.
- 5. Promote Regional Tourism:** Market the JKP counties as a prime tourist destination under the "Go Kenya Coast" brand. Highlight the cultural heritage

of Lamu, particularly through the Lamu Festival, to boost tourism and enhance the region's profile.

6. **Recognize and Reward Key Contributors:** Celebrate and honor key individuals and organizations who have significantly contributed to the transformation of the Kenya coastal region, both past and present. This recognition aims to acknowledge their impact and inspire continued efforts in regional development.

Expected Outcomes

1. **Investment Commitments:** Secure commitments from investors for the showcased bankable agricultural projects, with Memoranda of Understanding (MOUs) and Letters of Intent (LOIs) signed to facilitate project implementation.
2. **Enhanced CAIPs Development:** Identify and prioritize actionable steps for developing County Aggregation and Industrial Parks (CAIPs), leading to advancements in industrialization and job creation.
3. **Strengthened Partnerships:** Establish and strengthen partnerships among agribusinesses, governments, and academic institutions, fostering collaborative projects in the green and blue sectors.
4. **Youth Employment Opportunities:** Create and promote job opportunities for youth across the agriculture value chain, highlighting pathways for young people to engage in agricultural enterprises, from production to processing and marketing.
5. **Increased Tourism Promotion:** Enhance awareness and increase tourist interest in the JKP counties, particularly through effective marketing of the "Go Kenya Coast" brand and showcasing the cultural attractions of Lamu.
6. **Recognition and Inspiration:** Successfully recognize and reward key personalities and organizations who have made significant contributions to the Kenya coastal transformation. This acknowledgment will inspire continued commitment and effort towards regional development.
7. **Networking and Collaboration:** Provide enhanced networking opportunities among stakeholders, including MSMEs, manufacturers, investors, development partners, and civil society organizations, leading to productive collaborations and project advancements.
8. **Addressing Regional Challenges:** Develop investment opportunities that address climate change impacts, rising living costs, and socio-economic crises within the Kenya Coast, promoting sustainable regional growth.

JABEIC 2024 Key Themes and Topics

1. Showcasing Bankable Projects

- Investor-Ready Projects: Presenting robust agricultural projects across coastal counties.
- Investment Opportunities: Highlighting attractive investment prospects and funding models.

2. Advancing CAIPs

- Operational Strategies: Enhancing the effectiveness and productivity of CAIPs.
- Growth and Expansion: Identifying opportunities for scaling and developing existing CAIPs.

3. Synergizing Agribusiness

- Strategic Partnerships: Building collaborations between agribusinesses, government, and academia.
- Innovative Investments: Exploring green and blue sector investments aligned with Jumuiya 2030.

4. Promoting Youth Employment

- Job Creation: Generating employment opportunities across the agriculture value chain.
- Youth Engagement: Empowering young people and women in agricultural ventures.

5. Boosting Regional Tourism

- Tourism Promotion: Marketing the JKP counties under the “Go Kenya Coast” brand.
- Cultural Heritage: Highlighting attractions like the Lamu Festival to enhance tourism.

6. Networking and Collaboration

- Stakeholder Networking: Facilitating connections among MSMEs, investors, and development partners.
- Collaborative Projects: Encouraging productive partnerships and joint ventures.

7. Addressing Regional Challenges

- Sustainable Growth: Developing strategies to tackle climate change, rising costs, and socio-economic issues.
- Investment Solutions: Identifying investment opportunities that address regional challenges.

JABEIC 2024 Program & Participants

Program Summary

JABEIC 2024 will feature a comprehensive and engaging program designed to foster dialogue, showcase innovation, and strengthen regional partnerships. The conference structure includes a range of activities to facilitate meaningful exchanges and advance key objectives.

Program Goals:

- **Advance Agricultural and Blue Economy Sectors:** Facilitate knowledge sharing and discussions to enhance food security, value addition, and job creation within the region.
- **Highlight Investment Opportunities:** Provide a platform for showcasing bankable projects and attracting investment.
- **Promote Regional Tourism:** Showcase the unique cultural heritage and attractions of the JKP counties, including performing arts and cuisine under the "Go Kenya Coast" initiative.
- **Celebrate Contributions:** Recognize and honor those who have made significant contributions to the Kenya coastal region's development, inspiring ongoing commitment and effort.

Conference Structure:

1. **Preconference JABEIC Investor Forums:** Stakeholder meetings to set the stage for the main event.
2. **Main Conference Events:**
 - **Keynote Addresses:** views from leading experts on agricultural and Blue Economy advancements.
 - **Plenary Discussions:** Broad sessions addressing critical themes such as regional development, food security, and investment opportunities.
 - **Panel Discussions:** In-depth discussions with experts on specialized topics like County Aggregation and Industrial Parks (CAIPs) and youth employment in agriculture.
 - **Breakout Sessions:** Focused group discussions to explore specific issues and develop actionable solutions.
 - **Exhibitions:** Showcasing innovative agricultural projects, investment opportunities, and unique regional tourist attractions.
 - **Cocktail Reception:** An informal networking opportunity for attendees to connect and discuss ideas in a relaxed setting.
 - **Gala Dinner:** A celebratory event to honor key individuals and organizations who have significantly contributed to the transformation of the Kenya coastal region. This recognition aims to acknowledge their impact and inspire continued efforts in innovation and regional development.
3. **Post-Conference Dialogues:** Follow-up sessions to review key insights, solidify partnerships, and plan future initiatives

Participants

We anticipate hosting over 400 delegates, including representatives from the national government, Governors, CECs for Agriculture, Livestock, and Fisheries, Development Partners (such as FAO and EU-GO Blue Partners), entrepreneurs, private sector leaders, investors, and innovators (including tech companies). Additionally, we expect participation from SMEs, exporters and importers, CSOs, farmer groups, youth involved in agribusiness, women-led enterprises, and universities (such as TUM, PWANI, and TTU), as well as various international delegates. The event is also expected to attract more than 10,000 exhibition attendees from across the region

Delegates & Sponsorship Packages

Delegates

- **Delegate Attendance Fee:** KES 25,000 per person for the full duration of the conference. Please note that this fee does not include accommodation.
- **Student Attendance Fee:** KES 5,000 per person for the full duration of the conference. Proof of school registration is required.

Sponsorship Packages

Platinum Partner: KES 10,000,000.00

Benefits:

- Branding on All Conference Materials/Press, Website, and Virtual Platform
- Mentions on radio and TV promotions
- Complimentary video to run on conference screen
- Keynote Address at Opening and Closing Sessions
- Extensive physical visibility: Banners at Plenary, Breakouts, exhibition areas
- High-profile placements during major social events: Preconference Investor forums, Gala dinner, Cocktail
- Accommodation for 6 Pax for 3 Nights
- Table for 8 Pax at the JABEIC 2024 Dinner
- 4 Exhibition Booths (Size: 3M x 3M)

Gold Partner: KES 8,000,000.00

Benefits:

- Branding on All Conference Materials/Press, Website, and Virtual Platform
- Keynote Address at Opening Session
- Extensive physical visibility: Banners at Plenary, Breakouts, exhibition areas
- High-profile placements during major social events: Gala dinner, Cocktail
- Accommodation for 4 Pax for 3 Nights
- Table for 6 at the JABEIC 2024 Dinner

- 2 Exhibition Booths (Size: 3M x 3M)

Silver Partner: KES 3,500,000.00

Benefits:

- Branding on All Conference Materials/Press, Website, and Virtual Platform
- Keynote Address at Opening Session
- Extensive physical visibility: Banners at Plenary, Breakouts, exhibition areas
- Accommodation for 2 Pax for 3 Nights
- Table for 4 at the JABEIC 2024 Dinner
- 2 Exhibition Booths (Size: 3M x 3M)

Bronze Partner: KES 2,000,000.00

Benefits:

- Branding on All Conference Materials/Press, Website, and Virtual Platform: Good level of exposure.
- Banners at Main Venue.
- Accommodation for 1 Pax for 3 Nights
- 2 Seats at the JABEIC 2023 Dinner
- 1 Exhibition Booth (Size: 3M x 3M)

MSME Partner: KES 250,000.00

Benefits:

- Branding on Conference Website
- Banners at Main Venue
- 1 Seat at the JABEIC 2023 Dinner
- 1 Exhibition Booth (Size: 3M x 3M)

Exhibition Partner: KES 50,000.00

Benefits:

- 3 x 3 Exhibition Booth for 2 Days
- Includes Table and Two Seats
